

Carlos Daniel Quinonez Torres

Senior Full Stack Engineer | SaaS & Platform Engineering | Laravel, Nuxt/Vue, React, Flutter

Cali, Colombia | +57 310 792 2998 | juni191266@gmail.com | linkedin.com/in/danieltorres98 | github.com/ProgramadorFitness | vitrina.pfcore.tech | prisma-credit.pfcore.tech

PROFESSIONAL SUMMARY

Full Stack Engineer with 3+ years of experience building enterprise platforms, REST APIs, mobile applications, and published SaaS products. Experienced in legacy system modernization, modular architecture, multi-tenancy, RBAC, auditability, cross-platform integrations, and production deployments. Founder of PF Core Technologies, building real products for marketplace, inventory, credit, collections, and B2B SaaS operations.

TECHNICAL SKILLS

Backend: PHP, Laravel, Python, FastAPI, Node.js, NestJS, REST APIs, JWT, Sanctum, Spatie Permission

Frontend: Nuxt, Vue, React, Next.js, TypeScript, JavaScript, Pinia, TailwindCSS, Vite

Mobile: Flutter, React Native, Expo, published Android/iOS applications

Data & Infrastructure: PostgreSQL, MySQL, Prisma ORM, SQLAlchemy, Alembic, Redis, MinIO, Docker, Docker Compose, Linux, Azure, Nginx, Traefik

Architecture: Modular Monolith, B2B SaaS, RBAC, multi-tenancy, auditability, domain services, API contracts, security, performance, technical documentation

PROFESSIONAL EXPERIENCE

IM Ingenieria

Full Stack Developer | Cali, Colombia | 2024 - Present

- Led technical modernization work for a legacy ERP into a modern Laravel/Vue architecture while preserving operational compatibility with existing modules.
- Implemented permission-based navigation, canonical routes, legacy screen fallback, and technical migration documentation.
- Designed REST APIs and internal system contracts to integrate dashboards, analytics, HR, self-service, and administrative workflows.
- Built operational dashboards with PostgreSQL, materialized/views-based reporting, client filters, and performance tracking.
- Contributed to DaVinci and Autogestion Kronus, enterprise platforms for analytics, HR, ATS, onboarding, documents, notifications, audit, and cross-system integration.

Key technologies: Laravel, Vue/Nuxt, TypeScript, PostgreSQL, REST APIs, Azure.

PF Core Technologies

Founder / Full Stack Developer | Cali, Colombia | 2024 - Present

- Founded and built SaaS products for commerce, inventory, credit, collections, mobile applications, and business operations.
- Built Prisma Credit, a published B2B SaaS for credit and collections with multi-company architecture, production API, Nuxt web app, and Flutter collector app.
- Developed customer, loan, payment, receipt, collection route, field visit, cashbox, promise-to-pay, reporting, audit, role, tenant, notification, and geolocation capabilities.
- Built Vitrina, a published multi-tenant marketplace for retail, inventory, and POS with FastAPI backend, React/Vite web app, and React Native/Expo mobile app.
- Implemented modular architecture, RBAC, multi-tenancy, Docker infrastructure, production deployment, and technical documentation for SaaS products.

Key technologies: Laravel, Nuxt, Flutter, FastAPI, React, React Native, PostgreSQL, Docker.

Freelance

Full Stack Developer | Santiago, Chile, Remote | 2022 - 2024

- Built custom web solutions for business clients.
- Developed financial management and portfolio systems with process automation.
- Implemented frontend interfaces with React, TypeScript, and modern JavaScript.
- Built backend services with PHP and Node.js, integrating MySQL and PostgreSQL.
- Managed the full development lifecycle: analysis, implementation, deployment, and support.

Key technologies: React, TypeScript, PHP, Node.js, MySQL, PostgreSQL.

Enterprise Project

Backend Developer | Cali, Colombia | 2022

- Developed and maintained custom WordPress plugins.
- Implemented backend logic in PHP and REST API integrations.
- Optimized relational databases to improve performance and data integrity.

Key technologies: WordPress, PHP, REST APIs.

SELECTED PROJECTS

Prisma Credit

Published B2B SaaS for credit, portfolio, and collections.

- Designed a multi-company platform with a production API, Nuxt web app, and Flutter collector app.
- Implemented a modular monolith with 56 backend modules, 96 API routes, 23 Nuxt pages, 20 Flutter features, and 14 production Docker services.
- Built domains for customers, loans, payments, receipts, routes, visits, cashbox, reporting, audit, users, roles, permissions, tenants, notifications, and geolocation.

Vitrina

Published multi-tenant marketplace for retail, inventory, POS, and mobile operations.

- Designed a multi-tenant platform for local merchants with FastAPI backend, React frontend, and React Native mobile app.
- Implemented catalog, public storefront, text and image search, cart, orders, inventory, ledger/kardex, POS, reports, and store/location RBAC.
- Built a backend foundation with 41 FastAPI routers, 68 services, 80 Alembic migrations, and 72 tests.

ERP IM Ingenieria / GrootNew

Progressive modernization of a legacy ERP into a Laravel/Vue architecture.

- Contributed to the migration of a legacy ERP into a Vue SPA and modern Laravel backend.
- Worked on a system with 12 documented modules, 145 Vue files, 50 tests, 10 Artisan commands, and 1,800+ Laravel routes.
- Implemented legacy route compatibility, Vue hubs, fallback screens, auth/permission guards, and coverage-gap documentation.

CERTIFICATIONS & COURSES

- Microsoft Azure Fundamentals (AZ-900) - Platzi, 2025
- Full Stack Developer with JavaScript - Platzi, 2025
- Git and GitHub - Platzi, 2025
- Introduction to Cloud Computing - Platzi, 2025
- React.js - Platzi, 2025
- Technical Assessment: Professional E-commerce with React.js - Platzi, 2025
- JavaScript: DOM Manipulation - Platzi, 2024
- JavaScript Fundamentals - Platzi, 2024

EDUCATION

- Systems Engineering - Fundacion de Educacion Superior San Jose, 2025
- University studies in technology / systems - Universidad Antonio Jose Camacho, 2024

LANGUAGES

- Spanish: Native
- English: Basic technical reading
